CALCULATION OF INDEX

The following indexes are calculated according to the formulae established in the ISO 16128-2.

NATURAL INDEX	NATURAL ORIGIN INDEX	ORANIC INDEX	ORGANIC ORIGIN INDEX
100%	100%	0%	0%

ISO 16128 guidelines established a series of technical definition and criteria for natural and/or organic cosmetic ingredients and final products. These guidelines are published in two parts:

ISO 16128-1: provides the necessary definition for classifying ingredients under the following categories: natural, derived natural, organic, derived organic and non-natural.

ISO 16128-2: describes how to calculate the following index for the ingredients: natural, natural origin, organic and organic origin. It also offers information for calculating the content of each category in a final cosmetic products.
